Liquid Cooling Solutions

Professionally designed, built and tested to withstand harsh environments

- High performance Coolant Distribution Unit (CDU)
- Impinging cold plate design with lower pressure drop
- Broad range of testing equipment to ensure product quality and performance
- Micro-channel cold plate block designs
- Liquid direct cooling for memory DIMMs
- High-grade tubing with low permeation, high-pressure capacity and small bending radii achievable
- Hot-swappable quick-disconnect capability for dry disconnect

Liquid Cooling Solutions

Advanced Liquid Cooling Solution – Purpose-built thermal solutions for any cooling budget

- Professionally designed, built and tested to meet the most demanding server/storage/data center needs
- Offering a full-range of liquid cooling solutions and wide-range of experience, Delta is the best thermal solution partner for autonomous driving technology
- QSFP-DD: Designing the 400G Ethernet networks of the future with Delta’s total liquid cooling solutions
